

# Mohammed Haji Ali

8867830256/ 8867830256ali@gmail.com / Haji[Linked In] /Github

## Professional Summary

Motivated Associate Developer with 1+ years of experience in Java, Node.js, Spring Boot, and cloud-based technologies. Passionate about building scalable, secure, and efficient cloud applications with a focus on performance optimization. Skilled in collaborating with cross-functional teams.

## EDUCATION

### Guru Nanak Dev Engineering College (BE)

Bachelor of Engineering in Computer Science CGPA : 6.8/10.0

Bidar, Karnataka

July 2018 - August 2022

## PROFESSIONAL EXPERIENCE

### Backend Engineer | PTR Technologies

Hyderabad, Telangana

May 2024 – Present

- Developed and maintained large-scale **Java** applications using **Spring Boot**, focusing on performance and scalability.
- Collaborated** with **designers**, product managers, and QA engineers to improve cloud-based procurement systems.
- Implemented **RESTful** Web Services, ensuring seamless integration with front-end systems.
- Actively contributed to performance testing for cloud deployments and fine-tuned application performance.
- Used **DevOps** tools like **Git** to streamline the deployment process.
- Responsibilities** Took ownership of key software components, managing the entire development lifecycle from coding to unit testing and code reviews.
- Office Experience** Collaborated effectively in a professional office setting, ensuring smooth communication and project delivery timelines.

### Backend Engineer | Synectiks

Hyderabad, Telangana

Dec 2023 - Apr 2024

- Participated in the development of software components, focusing on coding, **code review**, and **unit testing**.
- Implemented software solutions using **Java** and **JavaScript**, adhering to best practices in **object-oriented** programming (**OOP**).
- Utilized **SQL** and **PostgreSQL** for **database** management, executing efficient queries and managing relational **data structures**.
- Worked within an Agile Scrum environment, contributing to the iterative development and continuous improvement of software products..
- Assisted in maintaining and updating **project documentation**, ensuring alignment with the **SDLC** process.
- Collaborate** with **team members** to address technical challenges and refine software features based on feedback.
- Responsibilities** Took ownership of key software components, managing the entire development lifecycle from coding to unit testing and code reviews.
- Office Experience** Collaborated effectively in a professional office setting, ensuring smooth communication and project delivery timelines.

## TECHNICAL SKILLS

**Programming Languages:** Java, Core Java, JSON, Node.js, SQL, HTML, CSS.

**Frameworks:** Spring Boot, Spring Framework, Microservices, Hibernate, Serverless.

**Databases:** MySQL, PostgreSQL.

**Developer Tools:** VS Code, Eclipse, MySQL Workbench, DBeaver, Git, Postman, Chrome Developer Tools

**Cloud:** AWS (S3, Lambda, Step Functions,).

**Concepts:** Object-Oriented Programming (OOP).

## PROJECTS

**WhatsApp Bussiness API Integration** / Node.js, AWS Lambda, Serverless Framework, DynamoDb, Meta.

- Implemented WhatsApp Business API integration to enhance customer engagement and communication, ensuring efficient deployment and scalable data storage.

**Ecommerce Platform** | *Node.js, AWS Lambda, Postgresql, Github, Serveless.*

- Developed RESTful APIs for product and order management, enabling efficient handling of product listings and order processing.

**Online Coffee Shop** | *Java, Spring Boot , MySQL, HTML/CSS, JavaScript*

- Established an efficient online coffee shop platform, enabling seamless browsing, ordering, and payment processing for users.

**Quiz App** | *Java, Spring Boot , RESTful APIs, PostgreSQL, Microservices*

- Developed a Quiz App using Java, Spring Boot, PostgreSQL, and Microservices architecture to ensure scalable and efficient performance.

## CERTIFICATIONS

---

- **Full Stack Java Development**, from Jspiders: Java Training Institute                      Hyderabad, Telangana

## ADDITIONAL INFORMATION

---

- Passionate about exploring and implementing new and innovative technologies to enhance software solutions.
  - Strong problem-solving skills and ability to work collaboratively.
  - Excellent communication and teamwork abilities, with a proactive approach to problem-solving.
  - Flexible and adaptable to new tasks and evolving project requirements.
-
